Updated September 2022

Frontier & Native American Communities Initiative

- Established in 2013 by NM Legislature
- Coordinated by New Mexico MainStreet Program
- Eligible to rural communities with under 15,000 residents
- Focus on catalytic economic development projects in a traditional business district
- Communities receive professional services and technical assistance to implement and complete the proposed project within a 12 to 18-months

Urban Neighborhood Commercial Corridor Initiative

- New program of the New Mexico Economic Development Department's MainStreet program
- Provides project-based community economic development support to urban neighborhood commercial corridors located in cities over 50,000 in population
- Focus on catalytic economic development projects in a traditional business district
- Communities receive professional services and technical assistance to implement and complete the proposed project within a 12 to 18-months

Project Guidelines

- Proposed projects for both project-based initiatives must demonstrate job creation, business development, leverage private sector investment, or enhancement of a community's economic environment.
- Communities receive free professional services, but this is **not a grant program**, and direct funding for selected projects is not necessarily part of the services or resources provided.
- A stakeholder group of volunteers and local government partner is required to implement the project.

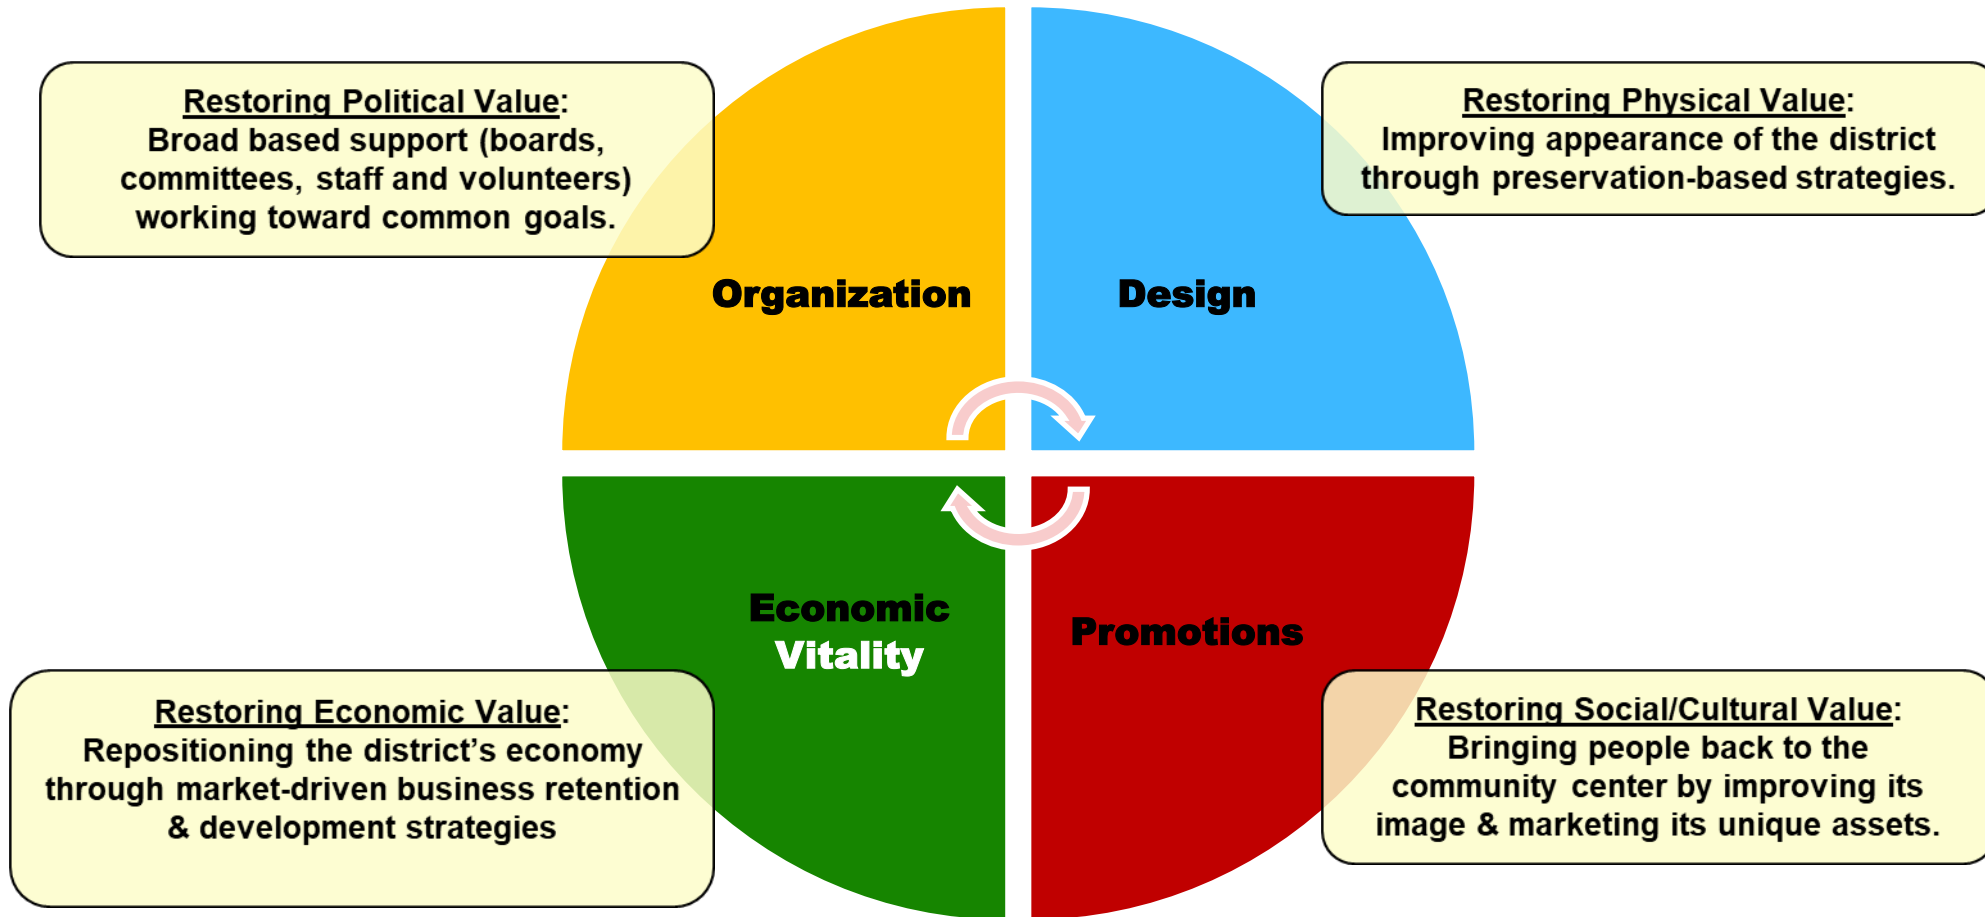

NMMS Technical Assistance

- Technical Assistance provided for selected projects by New Mexico MainStreet Revitalization Specialist and based on the Main Street Four-Point Approach® (Economic Vitality, Promotion, Organization, and Design).
- Professional design services provided are conceptual. Projects requiring a licensed architect, engineer, or construction documents may be ranked lower than projects that can be self-initiated.
- Frontier Community Partners have access to MainStreet Institutes, Workshops, and Conferences.
